CASA Aviation Medical Assessments

Rengel Aeromedical is the private aerospace medical consultancy for **Dr Anthony Rengel**, a Designated Aviation Medical Examiner (DAME), avid pilot and rural general practice registrar with the Australian College of Rural and Remote Medicine.

As a pilot myself, I understand the costs involved with aviation and odd hours you may work. My consultancy is designed to be flexible and provide affordable medicals at locations suitable to you. I am happy to travel to your place of work or home to undertake your CASA medicals – whether Class 1, 2, 3 or Basic Class 2/Commercial Drivers Licence Medical for recreational flying.

My cost is \$210* per medical of all types, excluding any additional testing. As a DAME assessor, I can also assess and offer same day issues of Class 2 for qualifying pilots.

*not inclusive GST or transaction fees. Additional fee of \$20 may be charged for travel depending on location

BEFORE SEEING DR RENGEL

- Please print this booklet, complete checklist/details and bring with you on the day
- For Class 1/2/3 medicals, apply through CASA MRS: <https://mrs.casa.gov.au>
- Ensure you complete all information and paid CASA. After payment, you need to go back to the previous screen to submit and it should say 'With Examiner' if done correctly.
- MRS will instruct you if you need additional tests (CASA testing guide is attached). If these are required, I can recommend the following locations:
 - Ophthalmology – Dr A Jackson, 1/138 Spencer St Bunbury. For Perth-based customers I recommend Ernie Hawes Optometry in Joondalup.
 - Audiology – SpecSavers Audiology.
 - Blood tests, Spirometry - Western Diagnostics preferred. Alternatively these can be performed by your regular GP and brought to your appointment.
- ECGs can be performed by myself at a charge of \$40 or you may bring a recent ECG (within last 2 months) from your GP.
- If you need any referrals, I will email them in your appointment confirmation. To ensure quick turnaround of your medical, I'd advise you complete these tests before seeing me.
- Ensure glasses (primary plus spare) are up to date (if applicable).
- If you are on medication, please ensure your prescriptions are up to date.

ON DAY OF EXAMINATION

- Bring your glasses (including a spare set).
- Bring your latest medication list/health summary/specialist letters (if applicable).
- Please have a form of photo ID (drivers licence, ASIC, passport acceptable).
- For Basic Class 2/RAA applicants, please have all necessary paperwork printed from website.
- Please bring a debit/credit card for payment on day
- Please allow for up to an hour to complete my part of the medical
